Subject: Ecopath Developer Site - DownloadingTheSourceFromSvn

Version: 22

Date: 2024-03-28 16:16:04

Table of Contents

Downloading the Source from SVN **3**

Downloading the Source from SVN

This article describes how one would download the sources.

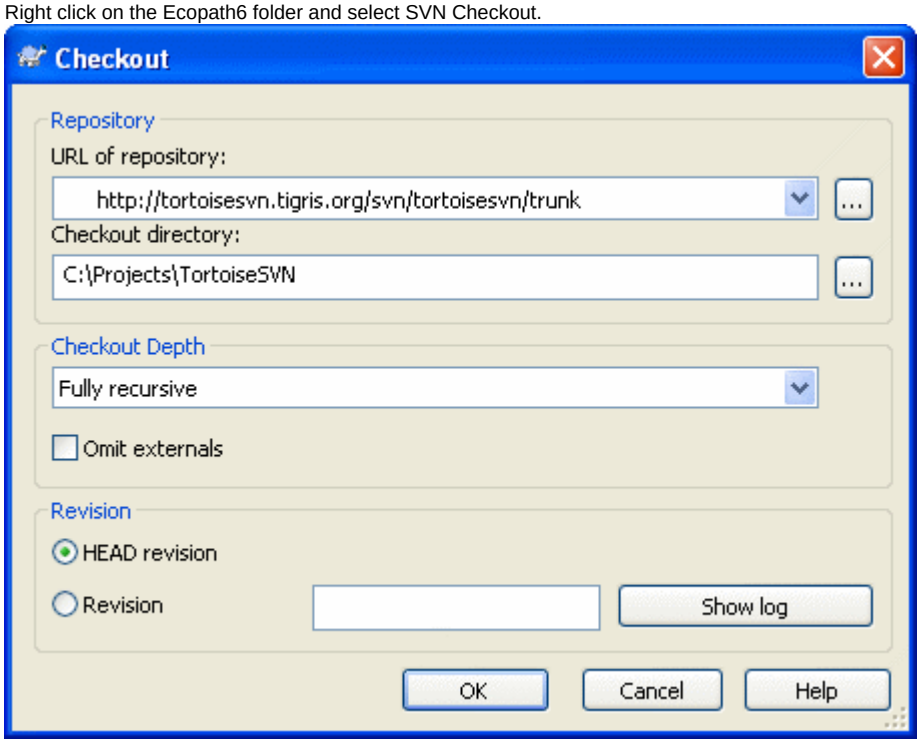

Please note, you must write us at ewedevteam@? to request permission stating ***who, why and how*** you would use the sources in-order to download the sources. From there, we will give you access to our SVN server.

---

i. Install ?TortoiseSVN.

ii. Create a folder [your path]/Ecopath_dev/Ecopath6.

iii. Right click on the Ecopath6 folder and select SVN Checkout.

iv. Enter the URL of Repository below and ensure the location of the folder to [your path]/Ecopath_dev/Ecopath6:

Ecopath6: ?http://sources.ecopath.org/svn/Ecopath/trunk/Ecopath6
Click OK and enter your username and password

i. Repeat steps 2 - 4 to with Ecopath5 to download the sources for Ecopath5.

Ecopath5: ?http://sources.ecopath.org/svn/Ecopath/trunk/Ecopath5

A WinCVS alternative to SVN would be ?RapidSVN. A Visual Studio Integration to SVN would be ?ankhsvn.
