Downloading the Source from CVS

This article describes how one would download the sources.

Get the code

i. Install ?TortoiseSVN (Version 1.6.5 preferred)
ii. Create a folder Ecopath_dev/<project_name>
iii. Right click on the <project_name> and select SVN Checkout
iv. Choose one of the URLs corresponding to the <project_name> and enter it in URL of Repository:

Ecopath6: ?https://sources.ecopath.org:8443/svn/Ecopath/trunk/Ecopath6

Ecopath5: ?https://sources.ecopath.org:8443/svn/Ecopath/trunk/Ecopath5

Click OK and enter your username and password

A WinCVS alternative to SVN would be ?RapidSVN A Visual Studio Integration to SVN would be ?ankhsvn.
