## Getting started with the EwE sources

Please write us an email to request access to the sources, stating ***why and how*** you would use the sources. We will then send you a user name and password back for connecting to our SVN server.

- Download sources from SVN - This article describes how one would download the sources.
- Install Visual Basic Express - Visual Basic Express is the development environment that we use to program EwE. This is required if you want to program or look into the source code of EwE.
- Run EwE6 from sources - This article describes how to run the scientific interface from the sources.
- CreateaSimpleUserInterface - This article will teach you how to create a Button, Label and a Textbox control.
- EwE6 console application - This article shows how to run EwE6 from a console application.
- Run Ecosim from a console application - This article shows how to run Ecosim from a console application.
- Ecosim multi threaded and Variable Timestep example - This article shows how to run Ecosim on a separate thread from the interface and a variable time step.
