Table of Contents

Getting started with the EwE sources	3
--------------------------------------	---

Getting started with the EwE sources

Please write us an email to request access to the sources, stating **why and how** you would use the sources. We will then send you a user name and password back for connecting to our SVN server.

- [Download sources from SVN](#) - Download the EwE sources from our central SVN server.
- [Install Visual Basic Express](#) - Visual Basic Express is the development environment that we use to program EwE. This is required if you want to program or look into the source code of EwE.
- [Install Access drivers](#) - Make sure your system has the Access 2007 drivers installed that EwE needs.
- [Run EwE6 from sources](#) - This article describes how to run the scientific interface from the sources.
- [EwE6 console application](#) - This article shows how to run EwE6 from a console application.
- [Run Ecosim from a console application](#) - This article shows how to run Ecosim from a console application.
- [Ecosim multi threaded and Variable Timestep example](#) - This article shows how to run Ecosim on a separate thread from the interface and a variable time step.

Simple Visual Basic tutorials:

- [Create a simple user interface](#) - This article will teach you how to create a Button, Label and a Textbox control.
