

Creating PDF documentation of Wiki Pages

This page describes how to create PDFs from Ecopath Users Guide Wiki pages. The WikiPrint plugin is customized specifically for Ecopath Users Guide.

- i. Go to Admin -> General -> WikiPrint
- ii. Add **EwE6 User Guide** in Book Properties -> Title
- iii. Select Output Format as PDF article
- iv. Edit [UsersGuide](#) and Copy the content between the parenthesis in TOC
- v. Paste the content in a text editor and remove the white-spaces and
- vi. Recopy the content without the white-spaces and paste the content in the textbox above **Create** and click **Create**
