## Technical FAQ

### Software requirements

To obtain the source code of EwE 5 and 6, you will need the following:

- A Subversion client such as [?TortoiseSVN](#)

To compile the source code of EwE, you will need:

- [?Microsoft Visual Basic 6](#) for EwE5.
- [?Microsoft Visual Basic Express](#) or [?Microsoft Visual Studio](#) for EwE6.

### Code documentation

- [Documentation your code](#) - How to write and publish in-code documentation with Visual Studio and [?SandCastle](#)
